

SETO LED INSPECTION LIGHT 2.0

Reliable lighting for maintenance, repair and inspection

With the rechargeable **SETO LED INSPECTION LIGHT 2.0**, you have an extremely robust and versatile lighting tool. The high-performance LED used provides up to 1,000 lumens at the front, for large-area, bright and eye-friendly illumination. Another LED on the front side enables you to work in the tightest of spaces, even if the light cannot be held upright.

A fold-out stand, extendable hanging hook and integrated magnets enable hands-free working in all situations.

The latest lithium-ion technology enables a very long service life with a pleasantly light weight. Convenient charging is possible via a plug-in power supply, a car charger or micro USB.

PRODUCT FEATURES

- Front and top light
- Two light sources
- Emergency light function
- Charging socket
- Capacity indicator
- Plastic hook for hanging
- Magnetic base (adjustable in various positions)

TECHNICAL DATA

Luminous data	
Illuminant	LED
Luminous flux	1,000 lm (main LED) / 200 lm (front LED)
Lighting duration (front) Lighting duration (head)	100 % = 3 h 50 % = 6 h 10 % = 15 h 100 % = 10 h
Life time approx.	50.000 h
General data	
Rechargeable battery / capacity (rechargeable)	3.7 V, 5,000 mAh, Li-Ion battery
Dimensions (l x w x h) approx.	215 x 55 x 35 mm
Operating temperature	-10 to +45 °C
Charging time	6 h
Special feature	Dimmable, emergency light
Item no.	**30__004025**

OPTIONAL ACCESSORIES

USB charging plug	**Item no. : 1410000110**
Car charging plug	**Item no. : 30__004020**
