Data sheet LED flashlight SR16
long-distance beam, 55,000 lumens

Réf. IM41-SR16

Long-distance beam flashlight !

The SR16 flashlight is one of the longest-running and most powerful flashlights available. It is equipped with 16 CREE XHP50.3 Hi LEDs, one of the best pitching LEDs available on the market. Simple but effective measures have been taken to maximize the potential of this torch, such as the use of a high-capacity, high-drain rechargeable lithium-ion battery, the use of an ultra-clear, hardened mineral AR coating, and an aluminum SMO reflector.
Lifetime is 50,000 hours and maximum output 55,000 lumens.
Uses 16 American CREE XHP50.3 HI LEDs.
High-efficiency constant current circuit maintains constant brightness.
Aerospace-grade aluminum alloy body, wear-resistant hard-anodized surface treatment.
Integrated thermal control module automatically adjusts brightness, for comfortable use.

Technical data :

- LED type: 16 American CREE XHP50.3 HI LEDs.
- Batteries required: battery pack (21700-4000mAh*4)
- Luminous flux: up to 55,000 lumens
- Numerous operating modes
- Efficiency and runtime: see table below
- Dimensions: 109mmx158mmx56mm (body diameter)
- Weight: 1130g (without battery)
- Impact resistance: 0.5m
- Accessories: charger, O-rings, metal handle, user's manual
- Warranty : 2 years for the flashlight, 1 year for the battery and charger
