Data sheet

MAG PRO WIRELESS rechargeable hand lamp

Réf. SC41-MAG-PRO-WIRELES

Description :

The MAG PRO WIRELESS is a cordless, rechargeable worklight designed for efficient operation in the workshop, thanks to the total flexibility of its three magnets and two retractable suspension hooks. This means you can place the worklight wherever you need it. Its modern design offers an ergonomic, user-friendly grip, and the flexibility of the lamp head means it can be tilted up to 180 degrees. It can also be recharged via the included USB charging cable.

You can also opt for the CHARGING PAD, sold separately (ref. SC41-CHARGEUR). This charger is designed so that the lamp automatically finds "its place" thanks to the powerful magnets on the back. This means that MAG PRO WIRELESS can be recharged even in a vertical position. The charger is designed for easy fixed mounting in a workshop, using two 4 mm screws.

Technical specifications :

- Light source: COB LED / Spot: high-intensity LED
- Lumens: 60-600 lm / Spot: 150 lm
- Main beam angle: 120
- CRI: Ra > 80 / TCP: 6,000 K
- Operating time (h): max. 15 / Charging time (h): 4 USB-C (or 7h with optional wireless charger)
- Battery: 3.7V / 2600 mAh Li-ion
- Protection rating: IP54 / IK07
- Cable: 1 m USB Type-C
- Charging voltage/c.c.: 5 V / 1 A - Charging input voltage (V): 100-240V AC 50/60Hz
- Power consumption: 6.5 W max.
- Operating temperature: -10°C to +40°C
- Dimensions: 261 x 62 x 43 mm / Net weight: 339 g

MATERIAL WARRANTY: 2 years (extension to 3 years possible, upon registration with the manufacturer)
